Shut Down the DC Liars' Bureau!

By *Diane Sare, President, LaRouche Organization*

A group of patriotic LaRouche activists hit the offices of the entire U.S. Senate with the LaRouche Organization's dossier "The Liars' Bureau, Who wants to block the confirmations of Tulsi Gabbard and Kash Patel, and what are they trying to hide?" on Thursday, January 24.

They also held a highly visible rally outside the Hart Senate Office Building where they distributed the dossier to passers-by.

President Trump wasted no time in taking the first steps to dismantle the weaponized intelligence agencies, stripping over 50 people of their security clearances within hours of his inauguration. The list included the 51 "former intelligence officials" who signed the lying letter about the Hunter Biden laptop, which claimed that it was "typical Russian disinformation" in an effort to ensure the election of the unqualified Joe Biden in 2020. It also included former National Security Advisor John Bolton who made sure that Trump was unable to finally end the Korean War during his first term in office, and that American troops were kept in Syria, despite President Trump's expressed intention to remove them.

Also on Thursday, Trump further ordered the declassification of the files on the assassinations of President John F. Kennedy and his brother Robert F. Kennedy, as well as the files on the assassination of Rev. Dr. Martin Luther King, Jr.

This is HUGE!

President Trump needs a team that shares his commitment to dismantling the apparatus which has made a mockery of our justice system, and lied us into war after war, while suppressing the rights of American citizens, including the outrageous targeting of America's leading statesman, Lyndon LaRouche. This is why I am asking you to mobilize with everything you've got over the next few weeks until we see Tulsi Gabbard and Kash Patel confirmed. Robert F.

Kennedy, Jr. is also a crucial voice against the mega corporations that send so much money to the Congress that our so-called representatives seem to have forgotten whom they represent.

Starting on January 27, your U.S. Senator will be in his or her home district. Visit their offices. Bring 20 friends, or 3 friends, or none, and demand that they stop listening to the people who are proven liars, and confirm Gabbard for Director of National Intelligence, and Patel for Director of the Federal Bureau of Investigation.
